

## Approach/ Departure

Our trip to Most started at 8 am in the morning. We took a bus and drove round about 8-9 hours. It was very hard and also a little bit boring but we did it. During the drive we saw beautiful and interesting places in the Czech Republic. When we arrived, most of our host families were already there and expected us. It was a nice moment when we saw our Czech friends of the Erasmus project. We felt very welcome. At the end we were divided into our host families and after that we went to their home. During the drive through the city we got some information about Most and its sights. All in all, everybody of us was happy to arrive in Most and we looked forward to the next days.

The last day of our week in Most started very early. It was a strange feeling to wake up and to know that it was the last day there in that city/family. We got our last breakfast and spent the last hours to pack our bags. At 8:30am we met at the hotel „Kapitol “where the bus waited for us. A lot of the French students came to the Kapitol only to say goodbye although they went home much later. That was very cool. The farewell was very short and fast. It was very sad for the moment but not for long because we knew that we would meet again in France. All in all, we had a great time together in Most.
